Prepared by Margaret McAleer and Edward Green, Jr., with the assistance of Paul Colton, Alys Glaze, John Monagle, Susie Moody, Kathryn Sukites, and Chanté Wilson
Collection Summary
Title: Glenn T. Seaborg Papers
Span Dates: 1866-1999
Bulk Dates: (bulk 1940-1998)
ID No.: MSS78514
Creator: Seaborg, Glenn T. (Glenn Theodore), 1912-1999
Extent: 370,000 items ; 1,015 containers plus 1 oversize and 4 classified ; 407.4 linear feet ; 13 microfilm reels
Language: Collection material in English
Location: Manuscript Division, Library of Congress, Washington, D.C.
Summary: Nuclear chemist, public official, and educator. Journals, correspondence, memoranda, minutes, reports, telephone and appointment logs, scientific research, speeches, writings, photographs, biographical material, newspaper clippings, and other printed matter documenting Seaborg's work as a nuclear chemist who codiscovered numerous chemical elements, as a professor of chemistry at the University of California, Berkeley, California, and as chairman of the Atomic Energy Commission from 1961 to 1971.

Selected Search Terms
The following terms have been used to index the description of this collection in the Library's online catalog. They are grouped by name of person or organization, by subject or location, and by occupation and listed alphabetically therein.

People
Compton, Arthur Holly, 1892-1962--Correspondence.
Eisenhower, Dwight D. (Dwight David), 1890-1969--Correspondence.
Goldanski, V. I. (Vitalii Iosifovich)--Correspondence.
Holifield, Chet, 1903--Correspondence.
Johnson, Lyndon B. (Lyndon Baines), 1908-1973--Correspondence.

Transuranium elements--Nomenclature.
Transuranium elements.
Westinghouse Science Talent Search.

Titles
Comprehensive Nuclear-Test-Ban Treaty (1996)

Occupations
Educators.
Public officials.
Scientists.

Administrative Information

Provenance
The papers of Glenn T. Seaborg, nuclear chemist, public official, and educator, were given to the Library of Congress by Seaborg and his estate between 1989 and 1999.

Additional Guides

Transfers
Audio recordings and a videotape have been transferred to the Library’s Motion Picture, Broadcasting, and Recorded Sound Division where they are identified as part of these papers.

Copyright Status
Copyright in the unpublished writings of Glenn T. Seaborg in these papers and in other collections of papers in the custody of the Library of Congress has been dedicated to the public.
Access and Restrictions

The papers of Glenn T. Seaborg are open to research. Researchers are advised to contact the Manuscript Reading Room prior to visiting. Many collections are stored off-site and advance notice is needed to retrieve these items for research use.

Security Classified Documents

Government regulations control the use of security classified material in this collection. Manuscript Division staff can furnish information concerning access to and use of classified items.

Microfilm

A microfilm edition of part of these papers is available on thirteen reels. Consult reference staff in the Manuscript Division concerning availability for purchase or interlibrary loan. To promote preservation of the originals, researchers are required to consult the microfilm edition as available.

Preferred Citation

Researchers wishing to cite this collection should include the following information: Container number, Glenn T. Seaborg Papers, Manuscript Division, Library of Congress, Washington, D.C.

Glenn T. Seaborg Papers
Scope and Content Note

The papers of Glenn Theodore Seaborg (1912-1999) span the years 1866-1999, with the bulk of the material dating between 1940 and 1998. The collection documents Seaborg's career as a nuclear chemist, which included the discovery of plutonium in 1940, and as a public official who shaped United States nuclear policy as chairman of the Atomic Energy Commission (AEC) from 1961 to 1971. The collection reflects Seaborg's diligence as a thorough record keeper and touches on most facets of his long life and career. The papers are arranged in fifteen series: Journals; Historical File; General Correspondence; Societies, Committees, and Events; Atomic Energy Commission; University of California, Berkeley; Transuranium Research; Subject File; Speeches; Writings; Miscellany; Microfilm; Oversize; Classified; and Formerly Restricted Data.

The Journals series contains three versions of Seaborg's journals including notebooks in which he recorded his daily activities, a typed transcript prepared by his staff, and a printed copy produced by the University of California Press. Although most of the notebooks, which span the years 1942-1981, are original, the collection includes only redacted photocopies of notebooks dating from Seaborg's years as chairman of the Atomic Energy Commission. A typed transcript of the journals is available for the years 1927-1934 and 1961-1998. The transcript, produced from the notebooks, contains expanded journal entries supplemented by copies of relevant correspondence, memoranda, minutes, reports, programs, and printed matter. The printed journal covers the years 1927-1990 and, like the typed journal, consists of expanded journal entries and supplemental material. Some entries and documents included in the typed transcript are omitted from the printed journal. Most of the printed volumes include proper name indexes. Appended to the printed journal are volumes containing additional documents, clippings, and material from press conferences.

Seaborg strove to amass a thorough record of his activities. The Historical File series contains photocopies of documents which he assembled to chronicle his life from childhood to his assumption of the AEC chairmanship in 1961. Although the subject matter overlaps with other series in the collection, the Historical File includes material not available elsewhere in the papers. Of particular note are documents relating to his early transuranium research at the University of California at Berkeley, his work on the atomic bomb for the Manhattan Project, his membership on the first AEC General Advisory Committee, and his chancellorship of the University of California, Berkeley.

The General Correspondence series contains Seaborg's correspondence with American and foreign scientists, government officials, academic colleagues, science writers, and students. Prominent correspondents include Arthur Holly Compton, Dwight D. Eisenhower, V. I. Gol'danski, Leslie R. Groves, Chet Holifield, Lyndon B. Johnson, Frédéric and Irène Joliot-Curie, John F. Kennedy, Ernest Orlando Lawrence, J. Robert Oppenheimer, Isadore Perlman, Andronik M. Petrosyants, Emilio Segrè, Adlai E. Stevenson (1900-1965), and Harry S. Truman.

The Societies, Committees, and Events series documents the breadth of Seaborg's professional associations outside the two institutional affiliations with which he is most often noted, the University of California at Berkeley and the Atomic Energy Commission. Files pertaining to professional scientific organizations, most notably the American Chemical Society, record Seaborg's attendance at conferences, service on committees and boards, and presidential terms. The series also contains material relating to Seaborg's associations with foreign scientists and international scientific organizations filed under the names of countries, organizations, or events. A large file relating to the Soviet Union contains material documenting American-Soviet exchange programs from the late 1950s to the mid-1970s. The often personal rapport Seaborg established with Soviet scientists is evident in this series as well as the General Correspondence.

The Societies, Committees, and Events files also document Seaborg's efforts on behalf of educational reform. The series chronicles his work on various federal and state educational panels, including the President's Science Advisory Committee from 1959 to 1961. Also included are files relating to educational projects such as Seaborg's chairmanship of the Chemical Education Materials Study, his participation in numerous science fairs, including the Westinghouse Science Talent Search, and his support for educational radio and television programming. Lastly, the series contains files relating to Seaborg's receipt of numerous awards and honors, most significantly the Nobel Prize in chemistry which he received with Edwin M. McMillan in 1951 for the discovery of plutonium. Although the Societies, Committees, and Events series provides a detailed account of more than sixty years of Seaborg's professional associations, researchers interested in contacts he
maintained while chairman of the AEC during the 1960s should consult the Atomic Energy Commission series travel file as well.

The Atomic Energy Commission series largely concerns Seaborg's chairmanship of the commission. The bulk of the series consists of a travel file related to Seaborg's extensive domestic and foreign travel as chairman and composed primarily of a chronological file documenting individual trips through correspondence, briefings, reports, itineraries, lists of people met, and related publicity. Seaborg's travels to approximately sixty foreign countries included trips to the Soviet Union in 1963, 1969, 1970, and 1971. A separate geographical file contains background information for many of these countries, including material on meetings with foreign officials in Washington. A foreign trip file includes a list of all of Seaborg's foreign travel, copies of travel reports, and a compilation of letters written by him to United States presidents concerning the trips. The chronological file also documents Seaborg's domestic travel as well as events held locally in Washington, D.C. Seaborg's domestic travel included trips to national laboratories, attendance at committee and board meetings, and speaking engagements at colleges, universities, and conferences and before civic groups. In documenting these events, the Atomic Energy Commission travel file complements material found in the Societies, Committees, and Events series.

Also among the Atomic Energy Commission series are records of meetings and telephone conversations held by Seaborg during his tenure as chairman. Summary notes of meetings detail discussions on a broad range of issues from civilian use of nuclear technology to arms control. The file constituting an official record of his telephone calls and meetings, available in the collection only on microfilm, yields perhaps the most detailed recounting of Seaborg's meetings, providing a more thorough account than is recorded in his journals. The series also includes a file, deemed personal by AEC regulations, which reveals significant facets of Seaborg's chairmanship. Included are address lists, membership lists, congratulatory letters on his appointment and reappointments as chairman, employment and financial disclosures, and foreign national guest lists. Scrapbooks containing clippings, programs, and photographs are available on microfilm only.

The earliest material found in the Atomic Energy Commission series documents Seaborg's membership on various AEC committees prior to his chairmanship. Among other committee records, the file includes correspondence and minutes from Seaborg's participation in the commission's first General Advisory Committee from 1947 to 1950. The committee's work, which laid the foundation for a national nuclear policy, is further documented by copies of correspondence, minutes, and reports found in the Historical File series.

The University of California, Berkeley series consists primarily of administrative files following Seaborg's return to the university in 1971. The bulk of the series relates to the Chemistry Department, Lawrence Berkeley Laboratory, and Lawrence Hall of Science and their respective committee work, budget and fund-raising, and program development. A general administrative file concerns the campus at large and contains Seaborg's correspondence with the university's chancellor, president, and regents. Although the series contains very little concerning Seaborg's term as chancellor apart from congratulatory letters on his appointment, information about his chancellorship is available in his journals, the Historical File series, and notes assembled for his book, Chancellor at Berkeley, in the Writings series. Material concerning other University of California campuses and the university's management of Energy Department laboratories can be found in the Societies, Committees, and Events series.

The Transuranium Research series documents Seaborg's work as a scientist during the 1940s and 1950s, including his discovery of and exploration into the chemical properties of transuranium elements. The bulk of the series concerns his work at Lawrence Berkeley Laboratory before and after World War II and at the Metallurgical Laboratory in Chicago during the war. While raw scientific data preserved in the series is fragmentary, correspondence, memoranda, reports, and logs detail the results of the laboratories' scientific work and reveal the myriad administrative issues involved in operating both facilities. During the last thirty years of his life, Seaborg collected numerous documents recording personal experiences at the laboratories including personnel records, room assignments, floor plans, and staff recollections.

The Transuranium Research series also contains a patent file useful in tracing the evolution of intellectual property rights in the nuclear science field and as a valuable source documenting Seaborg's scientific work. Seaborg held more than forty patents for his scientific discoveries, including the only patents issued for chemical elements. Also featured in the series is a file Seaborg titled “Social and Political Implications of Scientific Research” reflecting the attempts on the part of scientists, many of them working on the Manhattan Project, to cope with the moral implications of their scientific research. Included are correspondence, minutes, statements, legislation, newsletters, and drafts of writings. The bulk of the material dates between 1945 and 1946 and appears to have been created or collected by the Atomic Scientists of Chicago.
The Subject File series contains background information on topics principally relating to nuclear science, such as nuclear medicine, nuclear waste disposal, and management of excess plutonium. Files on arms control document the Comprehensive Nuclear Test Ban Treaty which Seaborg supported. Also included are informational files on numerous transuranium elements, many of them discovered by Seaborg. Controversies surrounding the naming of new elements are explored in the series. A large file focuses in particular on the International Union of Pure and Applied Chemistry's initial rejection of “seaborgium” as the official name of element 106. More information concerning the international union's role in this issue can be found in the Societies, Committees, and Events series.

The Speeches and Writings series contain drafts of Seaborg's numerous speeches, articles, books, encyclopedia and atlas entries, and introductions, forewords, and prefaces. His speeches and articles focus particularly on his scientific research, peaceful uses of atomic energy, arms control, the history of nuclear science, education, and the environment. His books chronicle his scientific work, his chairmanship of the Atomic Energy Commission, and his chancellorship of the University of California at Berkeley. Seaborg received the assistance of Benamin S. Loeb in writing about his chairmanship of the AEC. Their collaboration is documented in this series and in the Benjamin S. Loeb Papers in the Manuscript Division.

The Miscellany series includes telephone and appointment logs maintained by Seaborg after the close of his AEC chairmanship. Also featured is a biographical file, photographs, family papers, and genealogical research into Seaborg's Swedish ancestry.

Security classified documents have been removed from the Seaborg Papers. Classified material withdrawn following the collection's transfer to the Library of Congress is listed in the Classified and Formerly Restricted Data series. Pink removal forms have been placed in the folders from which these items were removed. White forms indicate the removal of classified material by Energy Department officials prior to the collection's arrival at the Library. The Library does not have physical custody of this material.

**Organization of the Papers**

The collection is arranged in fifteen series:

- Journals, 1927-1998
- Historical File, circa 1922-1961
- General Correspondence, 1937-1999
- Societies, Committees, and Events, 1939-1999
- Atomic Energy Commission, 1944-1990
- University of California, Berkeley, circa 1939-1998
- Transuranium Research, 1930-1994
- Subject File, 1914-1998
- Speeches, 1940-1998
- Writings, 1936-1998
- Miscellany, 1866-1999
- Microfilm, 1957-1971
- Oversize, 1963-1996
- Classified, 1948-1971
- Formerly Restricted Data, 1961-1971
Description of Series

Container  Series
BOX 1-142  Journals, 1927-1998
Three versions of Seaborg’s journals including notebooks, a printed copy, and a typed
transcript. In the printed and typed transcript versions, journal entries are supplemented by
copies of relevant correspondence, minutes, reports, and printed matter filed immediately
after each entry.
Arranged alphabetically by type of copy and thereunder chronologically.

BOX 143-253  Historical File, circa 1922-1961
Photocopies of correspondence, minutes, reports, writings, scientific research, academic
records, and printed matter documenting Seaborg’s life prior to 1961, including his
childhood, academic training, transuranium research, and chancellorship of University of
California, Berkeley.
Arranged chronologically.

BOX 254-407  General Correspondence, 1937-1999

BOX 254-384  Alphabetical File, 1937-1999
Correspondence to and from scientists, government officials, academic colleagues, science
writers, students, and others.
Arranged alphabetically by name of correspondent.

Correspondence consisting largely of copies of outgoing letters.
Arranged chronologically.

BOX 407-613  Societies, Committees, and Events, 1939-1999
Correspondence, memoranda, minutes, reports, proposals, scripts, programs, conference
proceedings, photographs, and printed matter documenting Seaborg’s professional
associations, including membership in scientific organizations, service on committees and
boards, speaking engagements, attendance at conferences, appearances on television and
radio, and receipt of awards and other honors.
Arranged alphabetically by name of event, institution, or organization.

BOX 614-737  Atomic Energy Commission, 1944-1990
Correspondence, memoranda, minutes, reports, telephone and meeting logs, lists, notes, travel
files, speeches, writings, photographs, and printed matter concerning Seaborg’s membership
on various AEC committees prior to 1961 and his chairmanship of the commission from
1961 to 1971.
Arranged alphabetically by subject or type of material.

BOX 738-769  University of California, Berkeley, circa 1939-1998
Administrative files consisting of correspondence, memoranda, minutes, reports, financial
records, personnel files, and printed matter relating to Seaborg’s association with the
university.
Arranged alphabetically by subject or type of material.
BOX 770-838 Transuranium Research, 1930-1994
Correspondence, memoranda, minutes, reports, scientific data and notebooks, patent files, lectures, lists, personnel files, photographs, and printed matter concerning Seaborg's transuranium research at the University of California, Berkeley, and at the Metallurgical Laboratory in Chicago, Ill., as part of the Manhattan Project.
Arranged alphabetically by laboratory, subject, or type of material.

BOX 838-861 Subject File, 1914-1998
Correspondence, reports, writings, and printed matter concerning subjects such as the discovery of elements, nuclear medicine, arms control treaties, and nuclear waste management.
Arranged alphabetically by subject.

BOX 879-950 Writings, 1936-1998
Drafts, printed texts, outlines, correspondence, photographs, and research files relating to articles, books, encyclopedia and atlas entries, and introductions, forewords, and prefaces written by Seaborg.
Arranged alphabetically by type of publication. Articles are arranged chronologically by year of publication and alphabetically thereunder. Books, encyclopedia and atlas entries, and introductions, forewords, and prefaces are arranged alphabetically by title.

BOX 862-878 Speeches, 1940-1998
Lists and texts of speeches.
Organized as bound volumes and unbound speeches and thereunder chronologically.

BOX 951-1015 Miscellany, 1866-1999
Appointment and telephone logs, appointment books, autograph requests, biographical material, family papers, interviews, photographs, questionnaires, and travel files.
Arranged alphabetically by type of material.

BOX 1015 Microfilm, 1957-1971
Correspondence concerning the Nobel Foundation, records of the President's Science Advisory Committee, telephone and appointment logs, and scrapbooks.
Arranged and described according to the series, containers, and folders in which the material originally appeared.
Available only on microfilm. Shelf nos. *20,104 and **20,451.

BOX OV 1 Oversize, 1963-1996
Maps and a letter.
Arranged and described according to the series, containers, and folders from which the items were removed.

BOX CL 1-CL 4 Classified, 1948-1971
Journal entries, correspondence, memoranda, minutes, reports, and itineraries.
Arranged and described according to the series, containers, and folders from which the items were removed.

BOX FRD 1 Formerly Restricted Data, 1961-1971
Journal entries, correspondence, memoranda, minutes, and reports.
Arranged and described according to the series, containers, and folders from which the items were removed.

Travel file
Chronological file
1961
Jan. 15-Dec. 23, miscellaneous trips
Mar. 6, Science Talent Search, Washington, D.C.
Mar. 9-10, Advisory Committee on Isotopes and Radiation Development, Washington, D.C.
Mar. 13, National Broadcasting Co., interview, New York, N.Y.
Mar. 26-28, National Science Teachers Association banquet and Argonne National Laboratory visit, Chicago, Ill.
Apr. 7, lunch with journalists, Washington, D.C.
Apr. 14, Radiosotopes in the Mining Industry Conference, Denver, Colo.
Apr. 22, Sigma Delta Chi, Washington, D.C.
Apr. 26, American Physical Society, Washington, D.C.
Apr. 28, Ernest Orlando Lawrence Memorial Award ceremony, Washington, D.C.
May 5-14, trip to California and Texas
May 10, American Ordnance Association, San Francisco, Calif.
May 11, Museum of Science and Industry, Los Angeles, Calif.
(2 folders)
May 12-14, Robert A. Welch Foundation meeting, Houston, Tex.
May 15, Radiation Research Society, Washington, D.C.
May 19, meeting with Japanese science writers, Washington, D.C.
May 22, Economic Club of Detroit, Detroit, Mich.
June 3, Florida State University, Tallahassee, Fla.
June 4, University of Notre Dame, Notre Dame, Ind.
June 7, CHEMStudy newsreel filming, Washington, D.C.
June 9, Ohio State University, Columbus, Ohio
June 10, University of Maryland, College Park, Md.
June 12, Institute of Nuclear Materials Management, Denver, Colo.
June 21, President's Safety Award, Washington, D.C.
June 22, meeting re Columbia Broadcasting System series on atomic energy, Germantown, Md.
June 29, SNAP power generator press conference, Washington, D.C.
July 10-11, Strategic Air Command visits to Wright-Patterson Air Force Base, Ohio, and Offutt Air Force Base, Nebr.
August 30, Southwest Seminar on Management and Uses of Nuclear Energy, Hot Springs, Ark.
Sept. 12, Museum of Science and Industry, Hall of Elements dedication, Chicago, Ill.
Sept. 13, Federal Bar Association, Washington, D.C.
(4 folders)
Sept. 26-29, International Atomic Energy Agency General Conference, Vienna, Austria
Oct. 12, Washington Section, American Chemical Society, Washington, D.C.
Oct. 16-17, Conference on Application of Atomic Energy, University of Nebraska, Lincoln, Nebr.
Oct. 20, Texas Rose Festival, Tyler, Tex.
Nov. 6, Adult Education Association, Washington, D.C.
Nov. 8, American Nuclear Society and Atomic Industrial Forum conference, Chicago, Ill.
Nov. 9-11, National Youth Conference on the Atom, Chicago, Ill.  
(3 folders)
Nov. 14, American Association of Land-Grant Colleges and State Universities, Kansas  
City, Mo.
Dec. 1, Enrico Fermi Award ceremony, Washington, D.C.
Dec. 2-3, Robert A. Welch Foundation meeting, Houston, Tex.
Dec. 5, United States-Japan Atomic Industrial Forums, Joint Conference on Nuclear  
Power, Tokyo, Japan
Dec. 8, National Association of Manufacturers, New York, N.Y.
Dec. 9, Charles Lathrop Parsons Award dinner, American Chemical Society,  
Washington, D.C.
Dec. 13-16, regents' meeting, University of California, Berkeley, Calif.
Dec. 16, College News Conference, New York, N.Y.

Dec. 27, John Wesley Powell lecture, American Association for the Advancement of  
Science, Denver, Colo.  
(2 folders)

Jan. 11, Basil O'Connor dinner, New York, N.Y.
Jan. 12, George Washington University, Washington, D.C.
Feb. 8, Youth Day Dinner, Thomas Alva Edison Foundation, Cincinnati, Ohio  
(2 folders)
Feb. 9, address to the Kentucky state legislature, Frankfort, Ky.
Feb. 26, Fairleigh Dickinson University, Teaneck, N.J.
Mar. 11, American Nobel Committee forum, New York, N.Y.

(2 folders)
Apr. 1, Prince George's Area Science Fair, College Park, Md.
Apr. 7, Villanova University, Villanova, Pa.
Apr. 14, National School Board Association, St. Louis, Mo.
Apr. 23, Ernest Orlando Lawrence Award ceremony, Washington, D.C.
May 4, Chemists' Club, New York, N.Y.
May 11, University of Michigan, Ann Arbor, Mich.
May 17, American Ordnance Association, Washington, D.C.
May 23, American Iron and Steel Institute, New York, N.Y.

May 26, "Prelude to Independence" celebration, Williamsburg, Va.
May 28, Tulane University, New Orleans, La.
June 3, Northern Michigan University, Marquette, Mich.
June 4, Nuclear Congress, New York, N.Y.
June 6, George Washington University, Washington, D.C.
June 8, television interview with Winston Prouty, Washington, D.C.
June 14, Savannah River Operations Office, Aiken, S.C.
June 20, American Nuclear Society, Boston, Mass.
June 21, Carnegie Foundation for the Advancement of Teaching, Princeton, N.J.
June 28, Society of Nuclear Medicine, Dallas, Tex.
July 24, Office of Education, Washington, D.C.
Aug. 10-27, West Coast trip
Sept. 14-16, visit to Stockholm, Sweden
Sept. 17-21, International Atomic Energy Agency General Conference, Vienna, Austria

Agenda, minutes, and press releases
Briefing material

Correspondence

Itineraries, travel arrangements, and chairman's luncheon
Speeches, statements, and interviews

Oct. 9, World Affairs Council, Los Angeles, Calif.
Oct. 10, seventy-fifth anniversary of Whittier, Calif.
Oct. 11, Rice University, Houston, Tex.

Oct. 13, Georgetown University, Washington, D.C.
Oct. 17, National Institutes of Health, Bethesda, Md.
Oct. 24, Parr Nuclear Power Plant, Parr, S.C.
Oct. 25, University of Connecticut, Storrs, Conn.
Oct. 26, University of the State of New York, Albany, N.Y.
Oct. 30-31, Oak Ridge National Laboratory, Oak Ridge, Tenn.

(2 folders)

Nov. 1, regional meeting, American Chemical Society, Gatlinburg, Tenn.
Nov. 7, Washington Society of Engineers, Washington, D.C.

Nov. 9, American Ordnance Association, Cincinnati, Ohio
Nov. 17-19, Savannah (nuclear ship) welcoming ceremony, San Francisco, Calif.
Nov. 23-26, Robert A. Welch Foundation meeting, Houston, Tex.
Nov. 26-28
Twentieth anniversary commemoration of the first nuclear reaction, Washington, D.C.

Dec. 3, Enrico Fermi Award ceremony, Washington, D.C.
Dec. 5, "Youth Wants to Know" interview, Arlington, Va.
Dec. 7-8, presidential visit to Los Alamos National Laboratory, Los Alamos, N.Mex., and Nevada Test Site, Indian Springs, Nev.

(2 folders)

Dec. 13, Weizmann Institute of Science dinner, New York, N.Y.

Dec. 26-28, National Reactor Testing Station, Idaho Falls, Idaho

1963
Jan. 10, Texas assumption of nuclear regulatory authority, Austin, Tex.
Jan. 11, Cedars of Lebanon Hospital, Los Angeles, Calif.
Jan. 24, Bendix Management Club, Kansas City, Mo.
Feb. 6, Woodrow Wilson High School, Washington, D.C.
Feb. 10 and 17, "Explorer" radio program taping, University of California, Berkeley, Calif.
Feb. 11, Thomas A. Edison Memorial Lecture, United States Naval Research Laboratory, Washington, D.C.
Feb. 18, Plutonium Chemistry Symposium, University of Chicago, Chicago, Ill.
Mar. 3, Association for Higher Education, Chicago, Ill.

BOX 653
Mar. 15, Hanford Atomic Plant, Richland, Wash.
(2 folders)
Mar. 16, University of Puget Sound, Tacoma, Wash.
Mar. 22-Dec. 17, miscellaneous trips
Apr. 1, National Security Seminar, Industrial College of the Armed Forces, Washington, D.C.
Apr. 6-8, Savannah River Plant, Aiken, S.C.
Apr. 25, Ernest Orlando Lawrence Award ceremony, Washington, D.C.

BOX 654
Apr. 26, Kentucky Research Foundation, Lexington, Ky.
Apr. 29, University of Massachusetts, Amherst, Mass.
May 3, Ames Laboratory, Ames, Iowa
May 4, Gustavus Adolphus College, St. Peter, Minn.
May 7, National Science Fair International and Lions’ Club, Albuquerque, N.Mex.
May 15, Transplutonium Elements Symposium, Argonne National Laboratory, Chicago, Ill.
May 19-Aug. 5, trips to the Soviet Union See also Classified
