Processing History

The Nevada Folklife Archive was processed by Ann Hoog in 2019 and by Sara Ludewig and Carolina Restrepo in 2022.

The American Folklife Center received digital files from the Nevada Folklife Archive collection on two hard drives, each of which was assigned a unique digital ID number. Sara Ludewig rearranged the files from their original order into format series and subseries that mirror the physical material's arrangement. The archivist assigned files to an AIP by series and the AIP for each series was assigned a new name. The AIP for Series 3 was divided into two parts to accommodate file size limits. Each file retained its individual file name. See the arrangement notes for each specific subseries for more information about the arrangement and description of digital files in this collection.

Administrative History

The Nevada Arts Council Folklife Program, a division of the Nevada Department of Tourism and Cultural Affairs, was founded in 1985. The organization administers grants, produces exhibits and publications, and initiates documentation projects that focus on the many forms of individual, organizational, and community folklife across the state of Nevada. The Nevada Folklife Archive existed as a repository for the fieldwork conducted by folklorists and contractors employed by the agency beginning in 1985. Folklorists employed by the Nevada Arts Council Folklife Program include Andrea Graham, Russell Frank, Blanton Owen, Eliza Buck, Jeanne Harrah Johnson, Anne F. Hatch, Michael Luster, Lesley Williams, Nicholas Curchin Vrooman, Tamara Layman, Debbie Nolan, Penny Rucks, and Christina Barr, among others.

Scope and Content

The Nevada Folklife Archive spans the years 1980 to 2017. The collection consists of field work conducted by folklorists employed by the Nevada Arts Council Folklife Program to document diverse communities and traditions across the state of Nevada.

Tasked with documenting various aspects of life and culture in Nevada, folklorists employed by the Nevada Arts Council Folklife Program collected the extensive sound recordings, photographs, transcripts, and field notes retained in this collection. The collection includes documentation of occupational folklife, including ranching, mining, railroad work, nuclear plants, and the entertainment industry; expressive traditions, including fiddling contests, cowboy poetry, leatherwork, glassblowing, basketry, quilting, music, and dance; and examples of vernacular architecture on ranches. Interviews and documentation highlight African American, Mormon, Paiute, Shoshone, Basque, Latinx, Japanese American, Thai American, South Asian American, Scottish American, and Italian American communities and traditions across Nevada. A large portion of the collection also documents programs and events sponsored by the Nevada Arts Council Folklife Program, including the Las Vegas Folklife Festival, the Sierra Folklife Festival, and the Folk Arts Apprenticeship. In addition to field work documentation, the collection includes correspondence relating to the administration of the Folklife Program, publications from the Folklife Program, and program files relating to the production of the Las Vegas Folklife Festival and the Sierra Folklife Festival.

Arrangement

The Nevada Folklife Archive is organized in 3 series:

- [Series 1: Manuscript materials, 1980-2017](#)
- [Series 2: Sound recordings, 1985-2005](#)
- [Series 3: Photographs, 1985-2005](#)

Digital materials are arranged into AIPs to mirror the arrangement of analog materials in the collection. Collection materials were accompanied by a metadata spreadsheet provided by the donor. Researchers may wish to consult this spreadsheet to find more detailed, item level description of both analog and digital materials in the collection. See NFA Spreadsheet.xlsx

Series 2: Sound recordings

Scope and content: Sound recordings on cassette tapes and audio reels of interviews, music, and events.

Subseries 1: Audiocassettes

She also paired transcripts with their associated audio recordings wherever possible. The archivist copied directly from documentation provided by the donor to provide the title for each cassette and she described cassette tapes using donor documentation, not by listening to the tapes. As a result, errors and discrepancies may exist.

Processing history: The archivist rearranged digital files from their original order and grouped digitized slides together in by subseries within a series-level AIP. Series 3 was split into two AIPs due to limits on file size. The donor digitized slides in this subseries, these materials are available to access at: afc2017002_series3_part1\Subseries 1, digitized slides, 1986-1990 and afc2017002_series3_part2\Subseries 1, digitized slides, 1991-2005. The Item ID for each digital file corresponds to the Item ID numbers for the analog materials. Each digitized slide is available as both a .jpg and a .tif.

Scope and content: Color slides of events, art, performances, vernacular architecture, and occupational folklife. The slides also document material from the Folklife Apprenticeship as well as various folklife festivals across Nevada. Note that the following slide groupings are missing: S-2000-011 through S-2000-019, S-2002-039, S-2002-061 through S-2002-074, S-2003-001 through S-2003-024, S-2003-042 through S-2003-049; S-2003-072 through S-2003-100, and S-2004-021 through S-2004-050.
