Introduction

The programs in the Leonard Pimental Collection of Programs were acquired by the Library of Congress as a gift from Leonard Pimental on November 21, 2002. The collection includes one hundred eleven items which span the 1920s to the early 1940s from theaters and other venues in Boston, New Bedford (MA), Providence (RI), New York City, the District of Columbia, and other cities along the Northeastern corridor. It consists of programs, program booklets, catalogs, promotional materials, and serials pertaining to ballet, concerts, motion pictures, musicals, musical comedies, musical revues, operas, operettas, plays, and vaudeville shows.

A master inventory has been prepared alphabetically "By Type" of performing medium, followed numerically by the assigned ID Number. The inventory includes, along with the Type of performing medium and Identification Number, the Title of the program, the Concert date(s), the Sponsor of the performance, the City, and where applicable the performer's name(s) and/or the composer's name(s). From the master inventory, separate inventories have been created with Index A - a chronological listing "By Date" of the performance(s), Index B - an alphabetical listing "By Title," Index C - an alphabetical listing by Performer(s), and Index D - an alphabetical listing by Sponsor(s).

Certain restrictions as to the use or copying of the materials in this collection may apply. Consult a Reference Librarian in the Music Division for further permission information.
